

# Generation E

Multipette® E3 and E3x: Multi-dispensing without compromise on accuracy and precision

> Multipette E3 and Multipette E3x are the experts for long series pipetting and non-aqueous liquids.  
[www.eppendorf.com/e3](http://www.eppendorf.com/e3)

# »There are many reasons for a Multipette®. You are the most important one!«

In 1979, 17 years after introducing the first piston-stroke pipette, Eppendorf revolutionized the Life Science Market again – always having customer needs in mind.

The first positive displacement pipette with multi-dispensing feature, the Multipette, made serial pipetting without repeated liquid aspiration possible. Since then several generations of mechanical and electronic Multipette multi-dispensers have facilitated your daily laboratory work. The latest model in the Multipette family are our electronic Multipette E3 and E3x dispensers.

Read how a Multipette makes your everyday routines faster and easier.

## Save time

The Multipette pipettes make long pipetting series faster and easier. The aspirated liquid can be dispensed up to 100 times without a refill. It is an ideal and smart solution for filling plates or large series of tubes (e.g., when working with nucleic acid purification kits).

## Relax

With the lightweight Multipette E3 the risk of repetitive strain injuries can be reduced in various ways: It minimizes operation forces through an electronic motor drive, and buttons are positioned to accommodate natural hand movements. A large display reduces eyes strain when reviewing settings.

## Work precisely and safely

The optimized system of Multipette and Combipips® advanced allows automatic tip recognition for ease of use. The syringe-style Combipip maximizes pipetting accuracy and precision. It is not affected by liquid properties, most manual pipetting errors, and provides protection from aerosol contamination.

# The One Pipette Missing in Your Pipette Set.

Save time and money.  
Work ergonomically and stress-free.  
Get reliable results.

**One instrument only**  
for precise pipetting from  
1 µL to 50 mL (dispenser tip  
limits the volume)

**Automatic tip recognition:**  
Perfected system with  
Combitips® advanced for  
reproducible dispensing  
results

In 2023, Multipipette E3/E3x pipettes and Combitips advanced tips have been awarded the ACT® label. ACT certificates reflect the sustainability rating of our products, offering laboratories a transparent view of our eco-friendly practices.

You can download the certificate at [www.eppendorf.com/e3](http://www.eppendorf.com/e3).

**One button tip ejection** enables one handed operation

**Selectable dispensing speed increases the reproducibility of results**

- > Eight different speed levels allow the optimum speed for each application
- > Reduced minimum speed increases the limit of viscosity of dispensable liquids
- > Increased maximum speed saves time without splashing

**Easy to read:** Large color display, optimal contrast, clear arrangement of all adjustable parameters

View all selected **parameters at one glance**; proven intuitive software navigation – updates available via [www.eppendorf.com/software-downloads](http://www.eppendorf.com/software-downloads)

**Display** in 9 different languages

### Selection wheel with seven operation modes with Multipette E3x

- > *Dispensing (Dis):* Serial pipetting for up to 100 steps in a row.
- > *Automatic dispensing (Ads):* Volume is dispensed at fixed intervals between 0.1 s and 10 s.
- > *Pipetting (Pip):* Precise liquid transfer of up to 50 mL.
- > *Sequential dispensing (Seq):* Individual volume setting for up to 16 dispensing steps.
- > *Multi-aspirate (Asp):* Consecutive aspiration of liquid of the same volume into one Combitip.
- > *Aspirate and dispensing (A/D):* Uptake and volume calculation of an unknown volume with immediate dispense in desired partial volumes.
- > *Titrate (Ttr):* Sensitive dosing of liquids while volume is displayed.
- > *Store up to 225 different parameter settings* to save programming time for routine applications.
- > *Sleep Mode* saves battery when not in use, and wakes up when Multipette is moved; Long life lithium-ion battery allows filling of more than hundred 96-well plates in a row.

# Positive Displacement Principle

With the Multipette/Combitips system volumes are dispensed using the positive displacement principle.

The liquid is directly dispensed without an air cushion, ensuring the correct volume is always dispensed regardless of the density, viscosity and volatility of the liquid.

In addition to serial dispensing, the Multipette/Combitips system is the perfect instrument to go beyond the limitations of a standard pipette.

## Your benefits:

- > Allows high-precision dispensing regardless of the physical properties of the liquid\*
- > Prevents aerosol contamination with hermetically sealed piston for secure dispensing
- > Provides protection from radioactive and toxic substances
- > Enables quick dispensing of long series with precise, repeated dispensing of identical volumes

\*Viscous liquids with high resistance to flow e.g. glycerol, liquids with a different density than water, liquids with high vapor pressure e.g. acetone, liquids containing detergent lowering the surface tension, foaming liquids and liquids with different temperatures.

# User Quotes

Participants of an independent usability study conducted at the Institute of Human Factors Engineering, Technical University Darmstadt, Germany, showed positive responses.

» *The display always shows exactly what to do.* «

**Anonymous Tester**

» *User-friendly operation and clear menu navigation – complex settings made easy.* «

**M. Reinhard**

Dipl.-Biol., Darmstadt, Germany

» *Aspirating liquid and dispensing in individual steps was easy. The settings were also easily made.* «

**C. Bender**

Biology student, Darmstadt, Germany

# Multipette® E3 and Multipette® E3x at a Glance

Feature	Multipette E3	Multipette E3x
High speed dispensing with motorized piston	■	■
Automatic Combitips® advanced tip recognition	■	■
One button tip ejection	■	■
Volume range from 1 µL to 50 mL	■	■
Rechargeable lithium-ion battery	■	■
Illuminated display	■	■
Automatic dispensing (Ads)	■	■
Pipetting (Pip)	■	■
Dispensing (Dis)	■	■
Aspirate (pipetting of supernatants) (Asp)		■
Titrate (Ttr)		■
Sequential dispensing (Seq)		■
Combined aspiration and dispensing mode (A/D)		■

## Technical specifications (information refers to the Multipette E3/Multipette E3x/Combitips advanced system)

Combitips advanced	Min. dispensing volume	Increment/step size	Max. dispensing volume	Volume	Systematic error*1	Random error*1
0.1 mL	1 µL	0.1 µL	100 µL	10 µL	±1.6%	±2.5 %
				50 µL	±1.0%	±1.5 %
				100 µL	±1.0%	±0.5 %
0.2 mL	2 µL	0.2 µL	200 µL	20 µL	±1.3%	±1.5 %
				100 µL	±1.0%	±1.0 %
				200 µL	±1.0%	±0.5 %

				25,000 µL	±0.3%	±0.2 %
				50,000 µL	±0.3%	±0.15 %

\*1 The data for imprecision (random error) and inaccuracy (systematic error) according to EN ISO 8655 only apply when using original Eppendorf Combitips advanced, speed 5, dispensing mode.

**Multipette® E3/E3x ordering information**

Description	Order number
<b>Multipette® E3</b> incl. charging cable and Combitips® advanced assortment pack (1 tip of each size)	4987 000 010
<b>Multipette® E3 bundle</b> incl. Charger Stand 2, charging cable and Combitips® advanced assortment pack	4987 000 371
<b>Multipette® E3x</b> incl. charging cable and Combitips® advanced assortment pack (1 tip of each size)	4987 000 029
<b>Multipette® E3 bundle</b> incl. Charger Stand 2, charging cable and Combitips® advanced assortment pack	4987 000 380
<b>Charger Stand 2</b> for Multipette® stream/Multipette® Xstream/Multipette® E3 & E3x, for one device	3116 000 031
<b>Pipette Holder 2</b> for one Multipette® E3/E3x, for Pipette Carousel 2 or wall mounting, sticky tape included, without charging functionality	3116 000 120
<b>Lithium ion rechargeable battery</b> for Multipette® E3/E3x	4986 602 009

<sup>1)</sup> 4 boxes of 25 pcs. each. Each box containing one adapter.

**Care for Your Pipettes**

Regular maintenance and calibration ensure that your pipettes continue to generate reproducible results. With our pipette calibration service offering, we provide validated and reliable services according to ISO 8655 in ISO 17025 accredited Service Centers to help you maintain premium performance.
